OBJECTIVE

To be a successful professional in a globally respected organization and to achieve the objectives of the organization by continuously upgrade my knowledge and skill set for the development and betterment of the company

EDUCATION

2018-2023	**Anuradha Engineering College, Chikhli, Dist.: Buldana** (Bachelor of Engineering BE)	**CGPA 6.45**
2017-2018	**Adarsh Jr College, Chikhli** HSC	**Percentage 62.15%**
2015-2016	**Shri Shivaji Vidyalaya, Chikhli** SSC	**Percentage 68.60%**

TECHNICAL SKILLS

Programming Language: **JAVA.**

Backend Technologies: **JDBC, SERVLET, JSP, Hibernate.**

Front End Technologies: **HTML, CSS, BOOTSTRAP, JS, REACT.**

Framework: **Spring.**

Database Language: **SQL.**

Tools: **ECLIPSE, STS, VS, MySQL, GIT.**

INTERNSHIP

05-Feb-2024

26-July-2024

- **Web Developer/ (Creazione Software)**
- Learn new technologies and perform daily task
- Implements mini console application and Static Pages.
- Design a web-based Application (HMS)

Hospital Management System

- **Description:** A comprehensive Web-based application designed to manage and secure information within a Hospital Management System (HMS) context.
- **Technologies:** HTML, CSS, Bootstrap, JavaScript, MySQL, Servlet, JSP, JDBC.
- **Modules**:
    - **Admin:**
        - Perform CRUD operations (Create, Read, Update, Delete) on user and system data.
        - Manage user roles and permissions.
        - Monitor and control overall system functionality.
    - **User (Receptionist):**
        - Performs all essential operations related to the Hospital Management System (HMS).
        - Manages daily transactions and records.
        - Secure login and authentication.
        - Access to personalized information and HMS details.
    - **Doctor:**
        - Secure access to patient records and management tools.
        - Update and manage patient information.
        - Schedule and manage appointments.

- **Objective:** Provide a secure and user-friendly platform that ensures data confidentiality and integrity.
